O.E.S. Entertains Sister Chapters

One of the most pleasant and social evenings in memory of residents here took place on Monday evening, Nov. 19th, when Champion Chapter O. E. S. entertained the members of Laurel and Maple Leaf Chapters of Lethbridge, and Heather Chapter of Carmanagay. In addition the husbands of the local sisters were included among the guests, and when the call to supper came over one hundred responded. The tables, in addition to being beautifully decorated, were intended for utility as well as the supper served was beyond criticism, and the fact that it was thoroughly appreciated was evident on every side.

H. E. Gill, Worthy Patron of Champion Chapter, took charge of the after dinner programme, which included short addresses by the Worthy Matrons of the three chapters represented, Mrs. McLean of Laurel, of Maple Leaf, Mrs. Wynn of Heather and Mrs. Harper of Champion, and several brothers from the different chapters were also heard. Mrs. Beaulieu of Champion, Past Grand Worthy Matron, was at her best, which is saying a good deal, and her remarks were duly appreciated.

After the tables were cleared Mrs. Roberts of Borons, Mrs. Martin of Lethbridge and Mrs. McLean of Champion rendered solos which were highly appreciated. Mrs. Roberts accompanying herself, while Miss Wilson of Lethbridge was at the piano for Mrs. McLean and Mrs. Martin. Story telling, which brought splendid responses from Mrs. Taylor, Carmanagay, Mesdames Williamson and Collins of Champion, H. Galbraith M. L. A. and others, to general enjoyment.

Whist tables were largely patronized the prizes for this part of the programme going to Mrs. Dupue of Champion and Mrs. Way of Lethbridge, while W. C. Hoskins attached the honor for gentlemen.

Dancing was also indulged in, the new electric orthophonic Victrola furnishing splendid music, in fact this new installation of the hall proprietors was quite a factor in the evening's enjoyment. Refreshments were again resorted to before the gathering broke up in time for the southbound train, most of the guests having used the railway for the trip.

Champion Chapter certainly enjoyed the visitors and to all appearances the visitors enjoyed their visit, and it is to be hoped such occasions will be more frequent in future.

WORK ON HALL REQUIRES TRUCKS

Gravel for the cement foundation of the Community Hall is now being drawn to the site from the pit, with P. Holm in charge of the pit and A. W. Jopling of the trucks. Those able to supply trucks are requested to get in touch with Mr. Jopling at once.

P. Holm and C. E. Anderson were prominent in the volunteer brigade which dug the basement for the hall, the former taking charge of the work.

There are 106 names of residents of this district which are not on the stockholders' list for the new hall. If these would subscribe an average of one share each the financial problem would be solved in fine style.

FERGUSON—McKAY

A pretty wedding took place on Saturday, November 17, at the Hotel Fullier, when Merle Catherine, eldest daughter of Mr. and Mrs. Gordon McKay of Vulcan became the bride of Victor Robinson, eldest son of Mr. and Mrs. Adam Ferguson of Champion. Rev. George Dickson of Knox United Church was the officiating clergyman.

The bride, who was given in marriage by her father, wore a gown of royal blue georgette trimmed with silver sequins.

Among the guests present were Mr. and Mrs. Gordon McKay, Miss Lorena McKay, Mrs. A. Ferguson, Mr. and Mrs. R. B. Lonheim, Miss Marjorie Ferguson, Mr. and Mrs. James Marshall, Mr. and Mrs. H. C. McFarland and Miss Lily Thompson.

Following the ceremony a reception was held at the Tea Kettle Inn. Mr. and Mrs. Ferguson will make their home in Champion.

Hazel Smith Dies

After Long Illness

Hazel Smith, aged nine years, passed away in the hospital at Calgary on Wednesday night, after a protracted illness. Messrs. Dean and Harry Smith left for the city at once on receipt of the news and the body will be brought to Champion and the funeral held on Friday at 2:30. The parents and relatives will have the sympathy of the entire community in their bereavement.

Joe Kesel Meets

Serious Misfortune

Joseph Kesel received his share of the wheat from his land amounting to about \$700, left for Calgary and in some way between McLeod's store and 1st street East and 335 Eleventh Ave. West lost the money. He reported the loss to the police but so far no trace of the money has been found.

C. W. League

To Hold Whist Drive

The Catholic Women's League will hold a whist drive in the old bank building on Monday, November 26th, commencing at 8:30. Refreshments will be served during the evening and usual prizes will be given. Admission 50c. Everybody welcome.

Masquerade Ball

Was Big Success

The masquerade dance at Alston on Friday, Nov. 16th, was very largely attended and splendid costumes were the order of the evening, the judges having difficulty in making the awards. Miss Pharis was first among the ladies as "Red Riding Hood," with Martin Sletto first gent as a Mexican. The comic prize went to Mr. and Mrs. W. McNary as negro wench and prospector, respectively, their costumes being exceptionally good. The evening was entirely enjoyable.

BIG DANCE AT

CARMANGAY

Champion Elks are giving a dance in the Carmanagay hall on Thursday, November 29th the proceeds of which will be devoted to a kiddies' Christmas. The Johnnie Anderson orchestra will furnish the music and all who attend may rely on a real good time.

Society Brand Clothes

Did you ever find
a perfectly satisfactory
suit of clothes?

If not—may we make a suggestion! When you buy a Fall suit, consider it from a new standpoint. The standpoint of Cut. That alone determines the good looks and comfort of a suit. And that's why a Society Brand Suit—utterly correct in cut—gives such perfect satisfaction! Let us help you choose one for Fall!

The suit shown above—in exclusive fabrics made for extended service—browns, medium grays, Oxford blue—

Police Will Enforce Game Act

As the result of an arrangement reached by the Department of Agriculture, the Attorney General's Department and the Alberta Provincial Police, administration of the Game Act will be carried on as in the past by the Game Commissioner's Branch of the Department of Agriculture, and enforcement of the provisions of the Act will be placed in the hands of the police and the voluntary game guardians, of whom there are several hundred scattered throughout the province.

Good Prices For School Lands

An average price of \$17.51 per acre was paid for 102 parcels of land totaling 15,945 acres disposed of by auction at Calgary on Tuesday last under the direction of W. T. Bollins, controller of school lands for the Department of the Interior. The highest price realized for a single parcel was \$81 per acre paid by Hugh Parry of Three Hills.

Dominion Bureau Estimate Crop Yield

Alberta's 1928 wheat crop is placed at 147,569,000 bushels or an average of 22 bushels per acre from the acreage sown. In the province, in the crop estimate issued by the Dominion Bureau of Statistics during the past week. This figure compares with 171,380,000 bushels as shown in the final estimate

of the 1927 crop. A considerable reduction from the earlier estimate of the yield in the western provinces has been made as a result of the frost injury to the crop. Alberta's average wheat yield compares very favorably with that for the whole Dominion which is placed at 20.8 bushels per acre.

In view of the increasing interest in the farming of muskrats an article in the December issue of *Bird and Gun* and *Canadian Silver Fox News* on a new muskrat ranching venture on a large scale is of special note. In addition to this, the latest issue contains sporting magazine carries its customary acceptable collection of hunting, fishing and outdoor yarns by well known authors.

British Columbia is making an effort to establish trade connections in Alberta and the other prairie provinces to replace importations of fruit from the United States by the R. C. product. At the same time the re-impounding of the former anti-dumping duties will be sought in parliament.

The Ford Motor Co. will undertake manufacture of automobile tires and other rubber products in Brazil, in connection with the Ford rubber plantation now being developed there, Henry Ford announced.

President Coolidge says that further improvement in the farmer's condition in the United States will come from a more scientific production and from a wider application of the co-operative system, and not from a national subsidy.

Fire caused a loss estimated between \$25,000 and \$30,000 in the village of Sunnybrook, 30 miles south of Hanna on Friday morning.

An appeal will be filed within the next few days against the conviction of Donald Field, Calgary taxi driver, who was sentenced to jail for two years less one day for manslaughter.

Blended by the glowing lights of an approaching car Thomas O'Brien, of Alder, drove into the ditch, the car upsetting and killing W. C. Beckley, an employee who was riding with him.

G. O. Lethian and John Labalik were killed by gas in the International coal mines at Coleman on Saturday, Nov. 27. Walter Nelson, fire boss had a narrow escape.

The Okalta No. 1 well in Turner Valley recently struck a gas flow of 2,000,000 cubic feet daily and it is anticipated it will prove the greatest well in the Dominion.

Canada will be largely represented at the Chicago Livestock Show, to be held from Dec. 1 to 8.

The output of automobiles has slackened considerably since the first of October, although it is still very large.

E. Leigh Caprell achieved a new Canadian record at Ottawa last Friday, when he reached an altitude of 18,230 feet. He was up in the air 10 minutes.

Premier Brownlee intimates that the Alberta legislature will likely meet at the end of January.

Every editor an expert. The departments of the *Family Herald* and *Weekly Star*, Montreal, are all headed by men of practical experience and nation-wide fame—that's why it's first in public esteem. The subscription price is only \$1 a year or three years for \$2.

LOCAL AND GENERAL

E. Latiff has been limping considerably for some time but refuses to give up entirely and quit business. Rheumatism is the cause, an old enemy of his.

Snow fell to a considerable depth at points west of Champion, but the ground in the near vicinity is bare, while the weather is ideal for the time of year.

F. N. Watts wishes to thank the Champion Elks, Champion Ladies' Aid, Mr. and Mrs. Fred Clever and Mr. and Mrs. Boss of Champion and Alberta Post elevator officials for flowers received during his recent illness, and numerous others who called at the hospital to see him.

THURSDAY, Nov. 22, 1928

The excavation of the basement for the community hall was an illustration of what may be accomplished by a community effort. Without knowing to what extent the work was spread out the results are so satisfactory that comment could scarcely be avoided. It was necessary to do the work quickly to avoid possible frost, which would interfere with the digging. The men and teams on the job made such satisfactory progress that in four days the excavation was practically complete.

It is a pleasure to see the grain moving to the elevators again in larger quantities. During the fall it looked as though the 1928 crop would not be marketed before the 1929 crop was sown. Last year provided a situation of this kind and undoubtedly hampered the sowing of the 1928 crop to a very considerable extent, leading to a larger proportion of frozen wheat.

It having been discovered recently that the distribution of cars seemed to be made without

reference to the points which had grain still on the ground and it seemed to be delivered at points where there was no actual necessity more liberally than at points where the congestion was greater, the matter was drawn to the attention of the grain commissioners. The following reply, together with the fact that a more plentiful supply of cars has been received locally, would lead to the conclusion that general representations such as were made from here have had a decided effect on the situation. The reply received follows:

President—Board of Trade, Champion, Alta.
Dear Sir—

The Board is in receipt of your wire of the 6th inst. and regret very much the delay in not answering same sooner, but the Board has been doing their utmost to bring the situation of car supply before the Railway Companies, and pointed out to them the great loss that would result if this grain was not taken care of, and have been urging them to give points where elevators are congested, and great amounts of grain exposed to the weather, special attention, and have now furnished the Railway Companies with a list of points that the Board consider require relief, and have urged them to concentrate their rolling-stock at such points, even if by doing so, other shipping points that had still elevator space available, were not furnished with a supply of cars at the present time.

Yours truly,
M. SNOW,
Grain Commissioner.

The open season on Hungarian Partridge is during the months of October and November. It may also be noted that big game hunters may bring out their trophies such as heads, hides and horns of big game animals lawfully killed by them, separate from the carcass.

Alberta has taken a commanding lead among the western provinces in the number of homestead entries for the nine months ending September 30, 1928. Homesteads to the number of 9,525 have been filed on in the four provinces during that period, as compared

with 4,905 in the corresponding months of last year. Of this number, homestead entries in Alberta totalled 5,470 as compared with 2,631 in the same time last year. While this figure includes a number of second homestead applications under the new regulations, it is stated that the great majority represent new settlers who are taking up land to establish homes in the province.

Some 20 of the thousand head of buffalo in Elk Island Park, east of Edmonton will be slaughtered during the month of December in order to keep the size of the herd within the carrying capacity of the park pasture. It is expected that most of the meat thus secured will be shipped north in the form of pemmican to provide food for the Eskimo inhabitants of the North-west Territories as a result of the growing demand from this source following trial shipments made last year.

Attention is drawn by Benjamin Lawton, Provincial Game Commissioner to a number of clauses in The Game Act which are being wrongly interpreted in some quarters. Mr. Lawton points out that nowhere in Alberta is there an open season for

beaver and there is no open season for muskrat in that part of the province lying to the south of the North Saskatchewan River. Between that river and Township 91 the open season for muskrat will be during the months of March and April, while to the north of Township 91 the open season will be during March and April and the first fifteen days of May.

Chrysler-Plymouth

At Last! A New Car Whose Like-In Style, Performance and Value-You Never Have Seen Before

No one but Walter P. Chrysler and his great engineering organization ever attempted such a car at such a price.

Plymouth is the amazing realization of the Chrysler vision of a low-priced car embodying the beauty, the quality, the durability and the value of the finest cars.

Abundance of power from the new Silver Dome high compression engine which uses any gasoline. Characteristic Chrysler speed, power and pickup.

Luxurious comfort over rough stretches that many \$2000 and \$3000 cars can well envy. Supreme safety of internal expanding hydraulic 4-wheel brakes,

efficient in any weather—the only car near its price with such equipment.

Full sized bodies with ample seating capacity for adult passengers. Fine, deep upholstery. Swagger body lines in the new vogue created by Chrysler—new slender profile radiator—new bowl shaped lamps—new type air wing fenders.

Rugged dependability insuring years of faithful service with exceptional freedom from mechanical trouble—the result of Chrysler Standardized Quality in fine materials and precision manufacture.

Ride in the Plymouth - Drive the Plymouth the most astonishing performance, quality, style and value the world has ever known!

TEA

"is good tea"
Red Rose Orange Pekoe is
the best tea you can buy
In clean, bright Aluminum
Canada On Easy Street

Hon. James A. Robb, Dominion Minister of Finance, is credited with the term "Canada is on easy street," when making announcement last month that even before due date, the Treasury had paid off \$22,000,000 of the \$53,000,000 short term bonds falling due on October 15, last, and that the balance would be paid on the date out of cash on hand in the Treasury. Even so, said Mr. Robb, there would be "some left over," and he had reason to hope, "If Providence continues kind to us and gives us good crops, and business keeps just as good as it is now, without even getting any better," to take care of further maturities coming along from now till 1933.

In other words, out of current revenues and without having to resort to the issue of refunding loans, Canada was able to pay off \$53,000,000 of its public debt this year. And this does not represent the full amount of the debt reduction that has been effected this year, with a consequent lowering of the interest burden.

In the short period of six years the public debt has been reduced to an extent that means a lessening of the burden of interest annually in an amount of almost \$15,000,000. And if Mr. Robb's expectations for the next five years are realized an equally large, or even larger, amount will be lopped off by 1935.

The most gratifying feature, however, is that this substantial reduction in debt and in annual interest charges has been achieved, not as a result of increased taxation, but concurrent with a general decrease in taxation, including lowering of tariff schedules, a lighter tax on business profits, reductions in the sales tax, smaller income taxes, reduced postage rates, smaller stamp levies on cheques, and the abolition of stamp duties on receipts. In a word, the removal of restrictions on the progress of the country has been helpful in the development of business, and, as a direct consequence, larger revenues to the Government.

Another important factor has been the really phenomenal improvement in the management and finances of the Canadian National Railways as a result of which the Dominion Treasury is no longer called upon to pay out huge sums to cover operating deficits and in interest to the public on account of railway bonds and debentures. On the contrary, the C.N.R. now accumulates an ever increasing surplus to apply on its past obligations to the Government.

The year now drawing to a close will, it is confidently expected, disclose a record year in the history of the Canadian National Railways. President Beatty is authorized for the statement that 1928 will, in all probability, prove to be the banner year in the history of the Canadian Pacific.

A perusal of the press of Canada, and particularly of all financial journals in which are recorded the annual reports of the banks, trust, loan, mortgage and insurance companies, and all the large manufacturing and industrial concerns of the Dominion, discloses the fact that one and all are enjoying great prosperity, enormously increased business and substantial profits.

No one circumstance can be credited with the whole responsibility for this magnificent showing, although it is safe to say that the great grain production of the West, coupled with the betterment in the life stock industry, the increase in dairying, and other branches of agricultural expansion, form the background, and is largely responsible for the general speeding up in the whole business of the country, and is occasioning the transfer of other lines of industry from the East to various centers in the West.

The general betterment is the result, as Mr. Robb frankly recognizes, of a beneficent Providence without whose aid all man's efforts must come to naught. It is due, also, to the courage, industry and enterprise of the Canadian people, and to some extent to the steady improvement in world economic conditions, inasmuch as Canada is dependent so largely upon its export trade.

Present conditions are, therefore, good and sound, and future prospects are very bright. It remains for the people of Canada to take full advantage of the situation, not to rest on their oars, but to plan and work in order that our joy expectations for the coming years may be fully realized. Every reduction in the public debt, every dollar saved in interest charges, every item of taxation lowered or wiped out, means further relief to all people and a further incentive to still larger development and growth. It is, therefore, to everybody's advantage and gain to work together in national co-operation.

West Coast Fisheries

The fishland record industry on the west coast of Vancouver Island records an advance of 50 per cent in production this year as compared with last, with an output of 16,000 tons of meal, and 3,000,000 gallons of oil. Within the past three years the number of plants have increased from five to 22.

Women of Scotland are wearing hats trimmed with flowers made from beech nuts.

At least 150 people sleep every night in Hyde Park, London's public park.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes the excess acid in the crude wastes. Get the best help in Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The result is immediate, with no bad after-effects. Once you learn this fact you will never deny the excess acid in the crude wastes. Get the best help in Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

Indigestion

Once you learn this fact you will never deny the excess acid in the crude wastes. Get the best help in Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

A Delicate Operation

Eye is Successfully Grafted On Person Who Regains Sight

One of the most delicate operations known to medical science proved at least partially successful when Bert Ferguson, of New York City, whose blind locked dimly at the world through another man's eye.

Ferguson's one eye failed him several weeks ago and doctors, in an effort to restore his sight, decided to transplant the cornea from another eye.

Charles Greenblatt, whose eye was removed because of a tumor, offered it to the surgeons and the cornea, still alive, was removed and grafted to Ferguson's member.

The medical world awaited the result anxiously and there was great interest today when the bandages were removed.

Ferguson was able to distinguish objects ten feet away. Surgeons said the development of the operation, the permanent success of the operation would depend upon the ability of Ferguson's optic tissue to nourish the cells of the grafted cornea.

WHEN YOUNG GIRLS GROW PALE AND THIN

Dr. Williams' Pink Pills Should Be Taken To Enrich the Blood

When girls grow pale and thin, their parents should not neglect these symptoms; to do so means danger. The girl is not getting enough food, and is not getting enough sleep, and is not getting enough exercise. She is not getting enough of the things that make the blood rich and healthy. It is the lack of this that makes the great trouble with nine girls out of ten. Dr. Williams' Pink Pills have achieved world-wide fame for their remarkable blood-enriching properties. In these pills there is vigorous health, with glowing cheeks and sparkling eyes for every weak, pale girl. The value of the pills in cases like this is shown by the statement of Mrs. Winifred Rutter, Bartlett, who writes: "About two years ago my little girl got into very bad health. I took her to a doctor who advised having her tonsils removed, saying this was the best thing to do. We had them removed, but it did not help her, and she seemed to have absorbed so much poison from the trouble that she did not pick up at all. She could neither eat nor sleep, and what food she did take did not digest. Then she developed a cough that kept her awake at night, and went down in weight to 80 pounds. A neighbor said to me, 'You have tried all the things you try Dr. Williams' Pink Pills, and now you are getting worse.' She snatched the second box she began to use, and in a few days she was using the use of the pills for some time and is now in the pink of condition, able to work and play, and eat and sleep with all her old-time vigor. These statements are true, and kept her neighbor who watched her restored from ill health to perfect health."

If your medicine dealer does not keep these pills you can get them by mail at \$2.00 a box from Dr. Williams' Medicine Co., Brockville, Ontario.

Tourists Like Victoria

Tourists to the capital of British Columbia this year numbered 570,000, according to the Victoria Publicity Bureau. Tourists travel from all parts of the world, and from the west coast of the United States to Vancouver Island and Victoria, the C.P.R. coast-to-coast steamship service, shows an increase over last year.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines and nothing in the shape of a worm can find lodgment there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Greater Vancouver

The population of Greater Vancouver has increased by more than 100,000 persons, or approximately 46 per cent, in the last four years, according to statistics contained in the local directory. The population is given at 344,160 against 317,185 in 1927, and 255,000 in 1924.

Break Colds with Minard's Liniment.

Servant: Mrs. Green is out. Visitor: Good. When I entered the yard and saw Mrs. Green looking out of the window I was afraid she'd be in.

Cheapest of All Oils.—Considering the quality of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. It is easily procurable and extremely moderate in price, so one should be without a bottle of it.

College boys are believed to be strongly in favor of the air mail having found out this year that it is the fastest way to get home just twenty-four hours quicker.

Minard's Liniment Heals Cuts and Bruises.

British Market is Large

Canada Might Send Greater Supplies Of Farm Products

The Farmers' Sun says: "Great Britain imported dressed poultry to the value of \$1,094,702 during January to August, 1928. Towards that amount Canada contributed poultry to the value of \$11,978. During the same period Great Britain imported eggs (in shell) to the value of \$10,999,385. Canada supplied \$24,923 worth. Canada's contribution in each instance is infinitesimal and could be greatly extended. As regards butter the comparison is even more striking, so for the period January to August, 1928, the total imports were valued at \$37,411,498, towards which Canada sent butter valued at \$15,850. Agricultural produce in large quantities is being supplied to Great Britain by foreign countries, including the United States of America, which shipped dead poultry to the value of \$911,929 during the eight months mentioned."

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred P. Averill, 136-15th Ave., Calgary, Alta., writes:—"I was bothered so much with my heart, I could not sleep. I would wake up in the night screaming, and my heart would start pumping and pounding."

A neighbor lady told me to try

so I started taking them and I can truthfully say I am a different person altogether. I only took two boxes. Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Edmonton Land Office Busy

83 Homesteads Taken Out In One Week In October

During the week of October 9th to 15th inclusive, 83 homesteads were taken out at the Edmonton Land Office. This compares very favorably with the records throughout the summer, and is very much in excess of the number filed upon during the same period of 1927, when 16 homesteads and one soldier's grant were taken out.

Minard's Liniment Invaluable Everywhere.

"My mother will be surprised when she sees my letter." August, she used to say "you are so stupid that you will never get a job" and in the last month I have had six."

The bride is given in marriage; sometimes the groom is sold.

My Secret Beautifier

Mrs. C. Delano, Washington, writes:—"About two years ago I was bothered with a great deal with a muddy, yellow, pimply skin. I found I could cover the skin with cosmetics, but this was merely a temporary relief. The best I could do was to use a cosmetic cream. I recommended your purely vegetable makes them, and suggested my skin might be constipated. After taking a short while I noticed a wonderful difference. My complexion has improved, also headache, indigestion and biliousness never bothered me any more. CAPTER'S LITTLE LIVER PILLS are all druggists 50c and 75c per box."

Will Spend Winter in North

Major Burwash To Carry On Investigations In Arctic Regions

In the black and rosy robes of Canada's Arctic regions an intrepid and experienced explorer of the department of interior will labor during the long winter months in the north, the valuable data and otherwise add to the knowledge of conditions among the wards of the Dominion, the Eskimo. The investigator is Major T. Burwash, of the Northwest Territories and Yukon branch who early in June of this year left Ottawa on his distant mission.

Following a long trip to Akivik in the delta of the Mackenzie River the explorer conducted a preliminary survey of that country before proceeding into the Arctic proper.

According to wireless reports received from a government station in the North, Major Burwash now has established his winter base on Boothia peninsula, from where he will carry out his investigations around King William Island, and on the mainland.

A survey of a proposed tractor route between Cockburn and Waglan Bays will also be made. This project is being investigated with a view to ascertaining the possibilities of bringing in supplies for posts on the Arctic coast by way of the Hudson Bay and overland by tractor, rather than by the present long and hazardous route through the Behring Sea and the Northern coast of Alaska.

In May, 1929, Major Burwash will sail northward on the government auxiliary schooner Placidian to investigate navigation conditions in the Franklin Strait and Peel Sound. He plans to join the annual Canadian Arctic expedition in the summer of 1929 with which he will return to civilization.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try.

Chicken Hatcheries For Alberta

Company plans To Establish Hatcheries At Several Points In The Province

A chicken hatchery on a large scale is to be established in Alberta, according to L. M. Gault, a member of the firm of Canadian Hatcheries, Limited, of Vancouver, and a recent visitor to Edmonton. He stated that the plan the company was to establish, eventually, hatcheries at several points in the province, where there is unlimited scope for baby chicks of high quality strain; also for eggs and poultry.

CHAPTER VII.—Continued.

For a short interval the noble animal held his majestic pose, then swayed awkwardly, he disappeared from view. At the sharp crack of the rifle the man by Donald's side winced as though the bullet had seared his own flesh. Brushing the sleeve of his coarse mackinaw shirt hastily across his eyes, he muttered a curse, then turned and ran with stumbling steps to his waiting team, muttering the seat and chuckled gently to his four horses. The big animals strained against their collars. The huge load moved slowly at first, then gathering momentum, rolled swiftly on the road.

Gulls greeted five cayuses to the rear of the station and in a few minutes his practiced hands loaded two of them with their luggage.

The small cavalcade moved up the dusty road in a single file, with Douglas in the lead. They overtook and met numbers of freight wagons going in and out, the drivers shouting greetings to each other in foreign tongues. They passed the track-laying machine, which was throwing the heavy rails about as if they were matches in giant hands. Guards stopped them without the zone of flying debris while giant blasts rent the air as if some titanic monster had torn the earth asunder. Huge rocks soared above the trees, then crashed to the

A rider jogging down the trail reined in his horse and shouted a cheery greeting in true Western style. He was a clean-limbed, alert young man, with a frank smile, and seemed elastic with the sword-keen health of outdoors. He swung easily from the saddle and introduced himself.

"My name is Wilkinson. I am the District Ranger. It's getting a bit dry in spots, so I want you to be careful about your fire."

When Douglas told him the object of their trip to Summit Lake the Ranger smiled apologetically.

"My warning was unnecessary, then. I took you for a party of campers. I'm following the construction work, so will probably see you again before long."

He mounted his cayuse, waved his hand in farewell, then galloped down the trail.

The narrow path wound around the boles of enormous trees towering high above them, some of the tallest being nearly two hundred feet in height. Gulls appraised them with a critical eye. He was thinking of them as logs, calculated in terms of board feet, but over Donald their beauty and nobility cast a strange appeal. How long had these monarchs enjoyed the repose so soon to be broken by puny men? Probably none of them were good-sized trees when Columbus discovered America.

The solemnity of the forest was at times broken by the sharp "kaka-a-a-a" of startled deer as they caught their scent, or the sudden hum of wings as big blue-grouse shot up from their path. Once the horses picked up their ears and snuffed in fear as a bear crashed his way through the deep woods.

As daylight abandoned the forest and sunset cast a lurid glow on the dusky trail, they swung to an open space on the banks of the roaring Cheamus River, and made camp for the night.

At daybreak they began the upward climb, and by noon felt the buoyancy of the air in the higher altitude.

They crossed rushing streams and skirted the shores of small lakes on whose waters rested flocks of fish in gregarious ranks. The craggy, crumbly cliffs with their formations showed signs of fatigue, and Gulls called frequent halts to the trail gradually grew steeper.

"We're nearly there," cried Douglas eagerly.

A few minutes later they topped a heavily-wooded hill and swung in to a narrow path on their right. There was no sign to guide the horses, as they knew that here were rest and food for them.

They were a sudden quaking along the line. Donald's horse broke into a run, with Andy's close behind, the latter holding to the rear of his saddle and making a very bad case of it.

"I wish I knew 'ow to keep this 'ere blinkin' saddle from comin' up and hittin' me in the seat," said Andy tranquilly.

Donald reined in his eager horse as they emerged from the woods and an enchanting scene burst on his view.

"This blinkin' 'orse is . . . Andy stopped as his gaze followed Donald's horse as it fell-bound, and the others joined them quickly.

The panorama spread before them was singularly wild and impressive. Edgewood stretched a lake of emerald hue, rippled here and there by occasional cat's-paws, but for the most part, placid enough to reflect the shores with mirror-like clearness.

To their right lay an open valley, through which ran a crystal clear mountain stream, its banks fringed with willow, alder and blooming Labrador tea. A rustic bridge of logs crossed the rushing stream to a cluster of well-built log cabins that were fenced in by a palisade of cedar posts. Inside the enclosure a patch of freshly ploughed soil stood out rich and dark against the carpet of green.

Under the azure sky, dotted with fleecy clouds, a brilliantly white skyline of ice-covered mountains, whose peaks flashed in the setting sun, circled this beautiful mountain valley.

From below were wafted the odours of an awakening earth. The sweet perfume of the newly-opened and sticky buds of the balsam-of-gilead, the delicious aroma of the spruce and pine, the heavy, sweet smell of the water plants and the white orchids; all this fragrance was borne on the crisp, sparkling mountain air, fanned untiringly the travellers' lungs with this life-giving atmosphere.

A beautiful gold-eye drake and his drab-coloured mate swam along the shore in search of a safe place to nest. From the centre of the lake a loon sent out its weird cry, echoing and re-echoing from the wooded hills like wild demonaical laughter. A quick rush of wings overhead, then a wallard duck struck the water with a loud splash and immediately

TARTAR

You are faithful in your mouth tooth-brushing, using toothbrush at least daily, but you still find deposits forming on the lower teeth, to which the tongue continually goes because of their roughness, and which you cannot remove by brushing, try as you will.

"Tartar," so called, is salivary calculus, and as its name implies, it cures the mouth through the saliva. The fresh deposit is soft and can be washed or brushed away when first it settles. This brushing must be done, however, within five to ten hours of its appearance, since remaining longer it begins to "set."

The calculus increases in bulk through more or less repeated accumulations until often large and thick masses of it are formed; these, pressing upon the soft gum tissues, cause them to become indurated, which inflammation progressing, may lead to the ultimate loss of the teeth.

Now, three "words" more—These deposits do not appear in every mouth, nor where calculus does occur, it is found constantly.

"Tartar" is found generally on the "inside" of the lower incisors and cuspids and on the "outside" of the upper first and second molar teeth, the reason for this being that these localities are opposite the mouths of the salivary ducts.

Loosely-occurring calculus has formed, its removal can be accomplished only through the medium of special instruments in the hands of the dentist.

But if you are subject to tartar, a faithful brushing following each meal especially of these areas, will do much towards keeping the deposits down to the minimum.

Remote Control

"Have you ever driven a car?" the lady applicant for a license was asked. "One hundred and twenty thousand miles," put in her husband, who was standing near by, "and never had her hand on the wheel."

"Are you an American citizen, Pat?"

"Faith O'm that. O' was born in Tipperary, but on the Fourth of July."

Little Helps For This Week

"Therefore will not we fear."—Psalm XLV, 2.

I see the germ to the sunlight reach, And the nestlings know the old bird's care.

I see the hare from the danger hide, And the stars through the pathless spaces ride.

I do not see that they have a guide. He is eyes for all who is eyes for the blind.

All motion goes to the rightful goal; O God! I can trust for the human soul.—Charles C. Amet.

The providence of God, that cares for the universe as a whole, that takes it at the beginning and holds it to the consummation, that we cannot see or know, that we can only dimly guess—this same mighty, all-pervading order of God's province considers my affairs; not simply nations, not simply cities, not simply families, but you and me, the leaf on the tree, the bird that sings on the bough, the flower that springs out of the sod.—M. J. Savage.

Mulch Paper For Plants

Found Highly Efficient in Increasing Production Of Farm Products

Remarkable success has attended the utilization of mulch paper, recently developed by the International Paper Company, which has greatly increased the production of various farm products, in some cases as high as five hundred per cent. Mulch paper is laid on the ground between the plants, or, alternatively, the plants are placed in the soil through the holes made in the paper. It has proven highly efficient in stifling weed growth and preventing rapid evaporation of soil moisture. The dark colour of mulch paper attracts soil heat and increases the temperature of the soil.

BABY'S OWN TABLETS

— ALWAYS IN THE HOME —

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children and babies well. The Tablets are a mild but thorough laxative which regulates the bowels, cures constipation and indigestion, colds and simple fevers and makes feeding easier. Concerning them, Mrs. Salas writes: "I have used Baby's Own Tablets for the past ten years and an never without them. In less than an hour they have always given the greatest relief. The Tablets are sold by all leading medicine dealers or direct to all mothers at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Recipes For This Week

(By Betty Barclay)

GEORGIA SWEET TATERS
6 medium sized sweet potatoes.
½ cup nectarine raisins.
3 tablespoons butter.
Salt and pepper.
Cream.

Pump and drain the raisins. Select smooth potatoes of uniform size, preferably ones that are not too elongated. Wash, using a vegetable brush, and place in a baking pan. Bake in oven 20 to 30 minutes, or until soft. Remove potatoes from oven, cut in halves lengthwise, and scoop out the inside. Mash, add butter, salt and pepper to taste and a little cream to moisten. Add raisins, ruff shells, and bake 5 minutes in a hot oven.

CREOLE CAKE

1½ cups of prepared cake flour, sifted.
3 teaspoons of baking powder.
1½ teaspoon of salt.
1½ teaspoon of cinnamon.
2 eggs well beaten.
1 cup of sugar.
3 tablespoons of shortening, melted.
2 ounces of chocolate, melted.
¾ cup of milk.
Gradually beat the sugar into the eggs; add the melted shortening and chocolate and alternately the milk and flour, measured, sifted, and stirred again with the baking powder, salt and cinnamon. Bake in a pan 7 x 11 inches, about 45 to 50 minutes, in an oven at 350 degrees Fahrenheit.
When the cake is cool cover it with this frosting:
1½ cup of confectioner's sugar which has been sifted.
3 tablespoons of cocoa.
1 cup of milk.
A scant half teaspoon of vanilla.
Mix the sugar and cocoa together, then stir in the two liquids, mixing it all thoroughly.

It has been found that the smoke of a cigarette will aid in keeping swamps at bay.

Troubled With Painful Eruptions Cuticura Healed

"I was troubled with itchy, sore eruptions on my head for over a year. They were very embarrassing, scratching all the time, and if I did scratch them a weary fluid came from them. They were very painful and my hair came out in patches. I tried many remedies during that time but without success. I read an advertisement for Cuticura Soap and Ointment so purchased a box of Cuticura. After using one week's treatment and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." — Miss E. Randall, 309 Kensington St., St. James, Man. Sept. 7, 1927.

Cuticura Soap, Ointment and Talcum are all you need for all skin ills. Soap to cleanse, Ointment to soothe, Talcum to powder.

Write for Free Book, "Cuticura Healed," to Dr. J. C. Kenney, 1231 St. James St., St. James, Man. Send 25c. for Cuticura Soaping Book 25c.

SUNDAY SCHOOL LESSON

NOVEMBER 25

THE PRAYERS OF PAUL

Golden Text: "Rejoice always; pray without ceasing; in everything give thanks."—1 Thessalonians 5:16-18.
Lesson: Acts 20:36-38; Romans 1:8-10; Ephesians 1:15-23; 3:11-21; 1 Thessalonians 1:2-4.

Devotional Reading: Psalm 34:1-8

Explanations and Comments.
Paul Prays With the Ephesian Elders, Acts 20:36-38.—Here we return to the scene of the shore of Miletus, our lesson three weeks ago. When Paul ended his talk with the elders who had come from Ephesus to meet him, he knelt on the shore and prayed with them. No doubt Paul was accustomed to deepen and consecrate his friendship with his co-workers by praying with them.
"More things are wrought by prayer than this world dreams of. Wherefore let thy voice rise like a fountain for me night and day. For what are men better than sheep and that nourish a blind life within the brain."
11. Knowing God, they lift not hands of prayer.
Remember themselves and those who call them friends?
For so the whole round earth is every way bound by gold chains about the feet of God.—Cromwell.

Paul's Thanksgiving and Prayer, Ephesians 1:15, 16.—The Epistle of Paul generally begins with thanksgiving, the subject of which is the work God already accomplished in the lives to whom he writes, and this thanksgiving is followed by a prayer in which the apostle asks that the gracious work may go on in their souls. After this, he passes to the subject he proposes to treat. In the Epistle to the Ephesians he commences with thanksgiving and prayer; and, if he may so speak, he never gets beyond this, and that he has in mind his readers is included in the outpouring of gratitude and desire which runs through the whole of the first three chapters. All three follow from the beginning of Chapter IV, is only the practical application of this true apprehension of the divine work.—F. Goudet.

Hence, as I have heard of your faith in the Lord Jesus and your love for the saints, wrote Paul, I mention you in my prayers (Moffatt's translation). Paul was in prison in Rome when he wrote these words, but his prayers and his chains could not keep him from roving for his flock by bringing them in prayer to God.
"Paul in his prayers made mention of persons and groups of persons, and your prayers as personal and specific as they ought to be." The very mention rebuke us in this matter. On an old scrap of papyrus was written in Egypt, in 172 B.C., a letter from a sister to her brother, saying, "I continue praying to the gods for your welfare, continually making mention of you. When I pray, I am in tears. I thank the gods for your welfare." The figure of the affectionate brotherly turning from her letter to a grateful prayer. Perhaps the whole trouble lies in our neglect of thanksgiving." — G. A. Johnston Ross.

Simple and Sure. — Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Use as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Fox Ranching Profitable

Prince Edward Island Still Leading District in Canada

Fox ranchers claim that it is a profitable pursuit, and evidently there is no question as to when the applications for registration continue to rise rapidly year after year. Applications received at Ottawa for inspection to Oct. 1 this year ran over 6,500, and more have come in since that time. Prince Edward Island is still the great fox-raising Province. Over 30,000 of the 50,000 applicants come from the Garden of the Gulf. New Brunswick is second with nearly 9,500, and Ontario third, with 5,210, is the Province which is making the greatest proportionate increase.

As a verminicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Fond Mother—Oh, professor, don't you think my dear little Reggie will ever learn to do it?
Eminent Artist—No; that is, not unless you harness him to a cart.

Total Foul Guilty

Verdict Of Guilty For Both Tora and the Nun Conception

The jury returned a verdict of guilty for both Jose de Leon Tora and the nun Conception, at the conclusion of their trial here. The jury was only out one hour and forty minutes.

Tora and Conception have been on trial for the past week on charges of murder growing out of Tora's assassination of President-elect Alvaro Obregon, on July 17. It was the defence contention that the crime was of a political nature and as such, under Mexican law, could not draw the death penalty. The prosecution asked only life imprisonment for the nun Conception, who was charged as the "intellectual author" of the crime. The judge pronounced a sentence of death for Tora and of twenty years' imprisonment for the nun Conception. The defence announced that it expected to appeal to the Mexican supreme court.

The remains of a lost civilization are being searched for in Soviet territory. They don't say who lost the civilization, but we can guess.

Robots in the Air

New Device May Simplify Duties Of Airplane Pilot

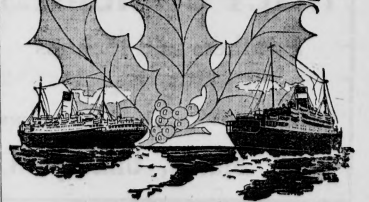

A new gyroscopic device for steering airplanes, successfully demonstrated in Germany, indicates that one of the problems of safer flying which has occupied the attention of aeronautical engineers has been solved. In a test flight from Berlin to Breslau, in which three transatlantic aviators participated, it was only necessary for the pilot to handle the controls during the take-off and landing. Once in the air, the plane was guided by an "iron man" and followed the exact course, set by the inventor, to its destination. Many stabilizing devices have been developed for aircraft, but this appears to mark the most advanced step toward lightening the duties of the pilot and giving him more time for navigation at details and other tasks.

France is below Japan, Iceland and Hawaii as a user of telephones, according to recent statistics.

Yaseline or olive oil rubbed into patent leather shoes when not in use prevents cracking.

DIRIGIBLE BEST POSSIBILITY FOR OCEAN FLIGHTS

Ottawa, Ont.—On the success of the projected flight of the dirigible R-100 from England to Canada next spring will largely depend the future of inter-empire air communication, Air Marshal Sir John Salmons, R.C.A.F., stated in a review here.

The distinguished British air official sent the air in Ottawa on his way home from Australia and called upon Hon. J. L. Harkin, minister of national defence.

"The dirigible appears to offer the best possibility for ocean flights at present," he said. "The future will probably see multi-motored aeroplanes capable of making such flights with safety, but for the next ten years the lighter-than-air machine seems best."

Australia was anxiously awaiting the result of the projected flight to Canada, he continued. A flight would later be made from England to the Antilles and to Egypt.

Proposed Wool Pool

Alberta Wool Growers May Organize Co-Operative Marketing

Edmonton.—Wool growers of Alberta who are proposing to organize a co-operative marketing pool on lines similar to that of the Wheat Pool, moved one step nearer that end at a conference with Premier Brownlee at which advice was sought and given on the question of procedure. The meeting, which was a continuation of one held some weeks ago, was attended by representatives of co-operative selling organizations among the wool growers in different parts of the province.

When a wool pool is formed, it will be on a contract basis, instead of the wheat pool, in that the voluntary basis on which the Alberta growers are now marketing through the Canadian Co-operative Wool Growers' Association. Details of the proposed plan were discussed, including especially the contract terms and Mr. Brownlee addressed the wool men as to how an effective organization might be built up. "It is likely that definite action will be taken in the near future."

New Air Company Formed

Charles has Arranged to Trans-Canada Airways Limited, Winnipeg

Winnipeg, Man.—Another company, the Trans-Canada Airways Ltd., has entered the commercial aviation field. Granting of a provisional charter to it was announced at the executive building here.

The provisional directors include R. Myers, barrister; J. R. Adams, agent; and A. M. Campbell, and George Barriere, Headquarters will be in Winnipeg and the provincial capitalization is \$200,000.

Victim of Invention
East Orange, N. J.—Doctor Sabia Von Schoeck died here, a victim of the luminous paint which he invented for the painting of watch dials in the plant of a radium corporation formerly located in Orange. Deaths of a half-dozen women, who were employed in the plant to paint watch-dials, have been attributed to the assimilation of radio-active substances.

Hudson's Strait Expedition
Quebec.—The Hudson's Strait expedition which started from Halifax in July 1927, with the object of establishing aids to navigation and securing scientific data on ice, wind and weather conditions in the Strait this year round, has concluded with the return a few days ago of the C.G.S. Montcalm, in command of Captain John Hearn to Quebec.

Radio Phones For Planes
Chicago.—Radio telephony for airplanes to keep in touch with each other during flight is being installed on the New York-Chicago aerial route it was announced here. Engineers have succeeded in perfecting plane-to-ground and ground-to-plane radio telephony, it was said, enabling pilots to keep in communication with their base while in flight.

Death Of Russian Admiral
Helsingfors, Finland.—Admiral Vasov, who commanded the Russian navy in the defense of Port Arthur against the Japanese attack in 1904, is dead. He was 82 years old.

W. N. W. 2190

Prospect For Further Reduction In Taxes

Increase In Revenue Makes Cut Next Year Probable

Ottawa.—Prospects for further substantial tax reductions next year are said to be improving with the increasing receipt of revenue collected by the customs department. In September the customs receipts showed an increase of over two million dollars over September, 1927. In October the customs receipts are said to be up by over three and half millions.

The seventh month collections from customs are up by over seventeen and a quarter million dollars. Despite tariff reductions in the last budget a percentage of the increase is due to the higher percentage of collections of money due and a curbing of customs dodging.

The October excise collections when published show an increase of over three-quarters of a million over October, 1927.

The excise taxes are down about fifty thousand but this is credited to the substantial reductions in the tax itself which this year amounted to 25 per cent. The net increase for the seventh month, however, is nearly three and three quarters millions.

All government departments are said to have been instructed to pre-empt the estimates carefully, and this is now being done so that with an increase in the revenue even under taxation and a decrease in the expenditure further tax reductions will be included in the "1929 Budget."

New Zealand Elections

Government Forces Under Premier Coates Receive Setback

Wellington, N.Z.—Prohibition was defeated by a majority of around 100,000 votes at the general election forces under J. G. Coates, prime minister, suffered a severe setback in the election.

Prohibition was on the ballot in the form of a referendum as to whether a licensing system should be adopted or the government should insist against continuance of prohibitions.

A new unit party under the leadership of Sir Joseph Ward made its debut by gaining seats on Premier Coates' party all over the country.

The final standing by parties was: Government, 28; United party, 26; Labor, 20; Independents, 6.

Most of the Independents are opposed to the government. The premier's party failed to gain a single seat out of the 80 seats in the parliament.

The new unit party combines Liberals, Nationalists and others opposed to the reform and Labor parties.

Three ministers lost their seats—A. A. Lee, minister of justice; J. H. Hawkes, minister of agriculture; and J. F. Railton, minister of justice.

Grain Inquiry Commission

Royal Commission in Saskatchewan To Probe Methods Of Grain Mixing and Grading

Regina.—A formal announcement of the appointment and powers of the Royal Grain Inquiry Commission directed by the Saskatchewan Government to investigate the present method and system of grading, mixing, handling and marketing of grain was made by Hon. C. M. Hamilton, minister of agriculture.

The commission consists of Chief Justice J. T. Brown, of the Court of King's Bench, of Saskatchewan; who is named as chairman, John A. Simmen, Saskatoon, president of the United Farmers of Canada, Saskatchewan section; and Dean W. J. Thibault, head of the College of Agriculture at the University of Saskatchewan.

Public sittings of the Royal Grain Inquiry Commission will open at country points in Saskatchewan during the first week in December and will be continued as long as is necessary to enable farmers to present their cases.

Farmer Kills Large Wolf

Montreal.—A wolf weighing 150 pounds and measuring six feet from nose to tail was caught in a trap and killed by a farmer at St. Rochelle, about 30 miles from Montreal. The animal was responsible for the deaths of 30 sheep.

New C.N.R. Hotel
Vancouver.—The city building committee has given authority for the leasing of a permit for the construction of the 13-story Canadian National Railway hotel to be erected here at a cost of approximately \$5,000,000.

Lava Flow Diminishing

Natives In Mount Elma Region Meeting Changed Conditions

Giarre, Sicily.—With the lava flow from Mount Elma, which has spread in intensity, natives of the stricken region are gradually reorganizing their economic life to meet the new conditions that nature has forced upon them.

There was some talk of tunnelling through the lava, which has spread over the road as soon as the molten stream cooled and its flow subsided. This would restore the severed railway to normal service. One of the most radiant over the diminution of the lava flow was Leonardo Patane, whose age is 100, and who is known as the "Grands of Nuzata." This intrepid centenarian steadfastly refused to budge from the threatened village. He proclaimed to all and sundry that he would be the last to leave. Now he is exhibiting a broad and toothy grin, saying "I told you so" in Sicilian dialect to all visitors.

Wheat Crop Estimated At Half A Billion

Figures Given For Canada's Production This Year

Ottawa.—Canada's wheat crop for 1928 is placed at 500,613,000 bushels in the crop report issued by the Dominion Bureau of statistics. Last year's total was 440,000,000 bushels. The crop of fall-wheat this year is given as 15,960,000 bushels as compared with 22,290,000 bushels last year. Spring wheat total for this year is 481,653,000 bushels as against 417,758,000 bushels the year before.

PLACE FOR THIS DOMINION IN EMPIRE AFFAIRS

Montreal.—A willingness to share the responsibilities which in the earlier stages of Imperial development Britain bore alone is the obligation which Canada and other Dominions should be ready to meet for their development in the British Commonwealth of Nations.

This is the message which Sir Austen Chamberlain, secretary of foreign affairs in the British government, left with the people of Canada before he left Montreal for Quebec, en route to England.

"There is room in our Commonwealth," said Sir Austen, "for the fullest development of Canadian nationality."

"We welcome your co-operation in all fields, and not least in the field of foreign affairs; but now that you claim, and rightly claim, a place in the field of foreign affairs, you must study them. You must take an interest which will make your papers afford you all the information necessary to enable you to form a judgment and you must be willing to share the responsibilities which in the earlier stages of Imperial development we have had to bear alone."

"We shall welcome your assistance and even your criticism. But let it be criticism only after the event, but a real partnership in forming the decisions."

PREMIER OF NEWFOUNDLAND

Sir Richard Squires, leader of the opposition party in Newfoundland who was recently elected premier.

Search For Small Continents

May Use Steam Shovel To Dig For Remains Of Missing Millionaire

Toronto, Ont.—Patrick Sullivan, special agent for the Misses Small, sisters of Ambrose J. Small, missing millionaire, may secure, is said, a steam shovel out from Bolton, Ont., to excavate the floodplain dump where both Sullivan and Dr. Langner, criminologist, believe the remains can be found.

Sullivan anticipates that the work of excavating the dump will cost in the neighborhood of \$5,000.

Despite previous assurances that he had abandoned his enquiry into the disappearance of Small, Langner will return to Toronto from Montreal to further work upon the world-famous mystery, it is learned here.

"I have been in touch with Langner and he tells me that he will be back here at work on the case before the middle of next week, perhaps before," Sullivan said.

Cyclone Does Heavy Damage In Argentina

Many Killed And Over Million Property Loss Estimated

Buenos Aires, Argentina.—Heavy loss of life and damage are reported from the region of Villa Maria, railway centre, which was struck by a cyclone. Eighteen persons are known to be dead in Villa Maria, with the number of dead and injured in neighboring towns undetermined.

Villa Maria was partly in ruins, while nine other nearby towns had suffered much damage.

Property loss was estimated at \$3,500,000.

Increase In Wheat Crop

Sydney, Australia.—The government statistical department announced today the estimate for the Australian wheat crop of 1928 was 154,000,000 bushels, an increase of 40,000,000 bushels in two years.

Expert Large Sales

Regina.—About 100 carloads of dressed poultry are expected to be sold in various parts of Canada and the United States by the central selling agency of the Saskatchewan and Manitoba poultry pools.

WINNERS OF FIG CLUB COMPETITIONS

Lawrence Wilkinson and Stewart Bruce, Tuxford, Sask., winners of the Fig Club Competition on Canadian Pacific Railway lines in that Province, will be guests of the company at the Royal Winter Show, Toronto.

May Move Weather Bureau

Headquarters of Department Likely To Be at Ottawa

Ottawa.—With the retirement of Sir Frederick Stuart, director of the meteorological service of Canada, on January 1 next, it is expected that the headquarters of his department will be removed from Toronto to Ottawa. The growing service of the bureau to navigation, forest fire fighting, the work done by the Department of Marine and Fisheries and, more recently the aeroplane traffic together with the fact that all the other important branches of the weather service are located here, are given as the reason for the change.

TRAGIC STORY OF SINKING OF LINER VESTRIS

New York.—Two shiploads of survivors of the Lamport and Holt liner "Vestris" arrived here, unfold details of one of the most horrible of marine disasters.

An official inquiry has been ordered, based upon their almost unanimous charges of inefficiency, indecision and delay against Captain William J. Carey and his crew.

Interpersed in narratives of heroism—and of brutality—of narrow escape, long suffering, invariably appeared assertions that if proper steps had been taken by the ship's command and crew, most, if not all, of the 108 now dead would be alive.

Even with the S.O.S. call too long delayed, efficient handling of the Vestris could have saved equipment by those responsible would have brought most of the 108 out of danger, declared survivors.

These are charges which United States Attorney Tully announced he will begin to investigate.

But Captain Carey probably had his reasons—yet he will never tell any. For forty years he had sailed in Lamport and Holt steamers. He "came up" through the "floatgate," as the sailors say, starting as a deck boy, advancing to ordinary seaman, then an able seaman, and finally winning his tickets and putting on the gold braid of an officer of the line.

When he took the Vestris out of port he was in the ranking master of the Lamport and Holt fleet.

Two days later he stood on the bridge and knew his ship was gone for the first time in his forty years at sea. Captain Carey gave the order to abandon ship. He never had lost a boat before. He stood at the rail as men, as one who they had the backs lowered away.

He saw two boats loaded with "women and children first"—the first two boats to be put over-side. He saw them capsized and crumpled in the smoking seas.

He saw other boats get away safely with men from the passenger list and members of the crew aboard them.

He saw Lionel Lefebvre, a gigantic negro from the Barbados, leap into the water and save 16 people by pulling them to the sides of waiting lifeboats. He saw Archibald Bannister dive over-side and climb into an empty boat which had gone adrift and then coast and drag into it a full load of 22 persons. He heard women scream and saw men quake with fear. He saw human life fade out around him.

And all the time the first ship he had ever lost was settling deeper and deeper into the sea.

At last all were gone. One boat remained by the ship's side, a place in it for Captain Carey and another for Mike O'Loughlin, his chief radio officer.

But those were never taken. Carey probably was the last man who saw "O'Loughlin alive." The gallant officer was last seen still in his key near the master's bridge, and his of the radio spark was still glimmering with the hiss of the sea which lapped upon the settling deck. O'Loughlin probably leaped into the sea and was sucked down by the ship.

But this to Carey—40 years with one line and this his first disaster—was the end.

Bent beneath his tremendous burden, he stood at the rail, the survivors said, as the water reached up to his head and his ship.

There were lifeboats and lifelines all around him—the things might have saved his life.

But Carey chose the course which many other true deep water sailors had chosen. He leaped into the sea and as the vessel went under, under Captain Carey went with it—a dead ship going down with a dead ship per still in command.

SUPERB COURAGE OF RADIO MAN BEYOND PRAISE

New York, N.Y.—The work of Noel O'Loughlin, radio operator of the ill-fated steamer Vestris, places him among the heroes of the sea disasters, in the opinion of veteran seamen and radio men.

O'Loughlin, a young Irishman, under 30, and a native of New York, was according to survivors of the tragedy off the Carolina coast, one of the last to jump from the liner but he was undoubtedly the last.

Lieut. Albert C. Rogers, communication officer of the naval operating base at Old Point Comfort, has this to say of the Vestris operator:

"His courage and his coolness to my mind were superb and beyond any precedent. He had been less courageous than he was doubtless more than the unfortunate number of lives lost would have been recorded. It is for all of us an event in my memory. I know the navy salutes him."

Radio Man B. N. Harris, of the naval radio station at Hampton Roads, a veteran of 10 years, said this:

"Only a man who has been in trouble at sea can understand just what O'Loughlin accomplished. There was not a radio operator anywhere who knew more about the Vestris than he. He went down, just what a magnificent stand this fellow was making. He saved the lives of the survivors and came pretty close to accomplishing the miraculous."

"God, how I feel level-headed he was with everything around him. I don't know of anything like him in my experience."

The sinking of the Vestris in the stations here as to when O'Loughlin first sent out the SOS signal and when he closed up, but a fairly accurate estimate is that he started a few minutes after 10 o'clock Monday morning and stuck up to his seat until water began to pour into the radio room about 1:20 that afternoon. At no time, say the local operators, was the Vestris man excited or frantic. An indication of his calmness was the fact that he sent as recorded by the navy, at the naval operating base. Some reports had him making a somewhat heroic finale, but the text shows nothing in the words themselves. The last O'Loughlin message was: "Abandoning ship V. A."

In radio shorthand "V. A." means simply "I have nothing more for you."

The name of O'Loughlin will be inscribed on the monument in Battery Park, erected in memory of wireless men, as one who kept the unwritten law of the sea by sticking to his ship until the end. His will be the first ship to be put over-side. The first of Jack Phillips, the radio operator of the Titanic.

United Grain Growers

Next Annual Meeting Will Be Held in Regina

Calgary.—Next year's annual meeting of the United Grain Growers Ltd., will be held in Regina, Saskatchewan, at the closing session of the 1928 annual meeting. The vote to hold the meeting in Regina was practically unanimous.

Two delegates from Regina, Murdoch Cameron, and J. L. Williamson, presented a request from the Regina shareholders that the next annual gathering should be held there. This request was supported by a telegram of invitation from the mayor of Regina and the board of trade of that city.

Next year will be the first occasion upon which the annual meeting of the U.G.G. has been held anywhere else but Winnipeg, or Calgary. It will be the first time the meetings have alternated for many years.

Cordial votes of thanks to the directors and employees of the company were passed. Expressions of satisfaction were also adopted with regard to the successful results of the past year's business and the present financial condition of the company.

Catherwood Station

Winnipeg.—"Catherwood" will be the name of one of the new stations on the recently constructed Roseau-Perth branch line of the Canadian Pacific Railway, in Saskatchewan. The station is named after Miss Catherwood, who brought fame to Canada for her accomplishments at the Olympic games held in Amsterdam this year.

Judge Felix Hebert, French-Canadian, will be first of his race to sit in United States senate. He is United States' choice.

Please leave donations as early as possible with members of the committee, Mrs. Bastin, Mrs. Hummel, or Mrs. Alexander.

Under the auspices of the Champion Athletic Association, a meeting was held in the high school on Tuesday November 20th, for the purpose of organizing a Junior Hockey Club.

The meeting was conducted by the president of the Association, Gordon McLean. Andrew Anderson was elected as captain for the ensuing season.

The Club is putting on a skating party at Caldwell's pond, on Friday evening, at 8 o'clock. If you haven't a way to go, be at the high school at 7.45 at the latest, and cars will be waiting to take you out. The ice is in an excellent condition, and after a good skate, hot dogs and coffee will be served.

Ladies' Aid Bazaar Saturday afternoon in Campbell's hall. Don't miss it.

The tickets are for sale, and the price is only 25 cents, no buy-up whether you skate or not. It will help the boys enormously.

There is good material available for a junior team this year, and under the coaching of Earl Boss this team should hold a foremost position in the Junior Hockey League. This league will be made up of teams from Carmangay, Vulcan and Champion.

Remember your twenty-five cents will be of a great benefit to the Club, and be sure that you are at the party to help make it a success.

Every branch of farm work, farm machinery, stock, etc., has an expert writer in the Family Herald and Weekly Star, the recognized first writers in Canada.
